March 19, 2020

Greetings,

Please accept this written recommendation for Paul Marengo. Since 1975 my career has been the entertainment business w/ experience on 8 non-profit boards I have served on I have always valued character and value. From my vantage point as Festival Director of the Boston Science Fiction Film Festival, Paul Marengo consistently demonstrated that which

I value the most - intelligence and creativity as both our Webmaster and Social Media Manager. He not only help support our marketing efforts, but also found new ways to promote and market our filmmakers. While only with us for a short time, his skill and experience have resonated deeply, and profoundly. In no short measure to his work, our 44th iteration was the best. There is not a scenario I can envision that Paul would not bring substance to the table.

Take Care,

A handwritten signature in black ink, appearing to read "Garen Daly".

Garen Daly, Festival Director
Boston Sci-Fi Fiction Film Festival

"The Longest Running Genre Film Festival in the Country"
